

include/masterslave
/manipulation/trajectory
/ITrajectory.h

```
graph TD; A["include/masterslave<br/>/manipulation/trajectory<br/>/ITrajectory.h"] --> B["Eigen/Core"]; A --> C["Eigen/Dense"];
```

The diagram illustrates the include paths for the file `ITrajectory.h`. A central box at the top lists the paths: `include/masterslave`, `/manipulation/trajectory`, and `/ITrajectory.h`. Two blue arrows point from this box to two separate boxes below. The left box is labeled `Eigen/Core` and the right box is labeled `Eigen/Dense`.

Eigen/Core

Eigen/Dense
